SUMMARY

MSc student in Engineering at Sabancı University, working with the Cryptography and Information SECurity (CISEC) group on code-based post-quantum cryptography. Mathematics background with prior research on secure multiparty computation (SMPC) and elliptic curves, and research experience at Bar-Ilan University and the University of Padua.

RESEARCH INTERESTS

Code-based post-quantum cryptography · Secure multiparty computation · Coding theory · Elliptic curves and number theory

EDUCATION

MSc in Engineering, Sabancı University, Istanbul Sep 2025 – present
CISEC group, under the guidance of Prof. Erkay Savaş
- Thesis: research in progress on code-based post-quantum cryptography

MSc studies in Engineering, Bar-Ilan University, Ramat Gan Oct 2023 – Jun 2024
Supervisors: Prof. Carmit Hazay, Ran Gelles
- Left the programme due to regional security conditions

MSc in Mathematics, Tekirdağ Namık Kemal University Sep 2021 – Oct 2023
Supervisor: Prof. Erdoğan Şen
- Thesis: *Usage of Secure Multiparty Computation (SMPC) in Voting Systems*
- Coursework: secure multiparty computation, coding theory, advanced algebra, topology

BSc in Mathematics, Gebze Technical University Aug 2016 – Mar 2021
- Thesis: *Rational Points on Elliptic Curves*
- Coursework: abstract algebra, introductory coding theory, graph theory, number theory

RESEARCH EXPERIENCE

Graduate Student Researcher, Bar-Ilan University (Tel Aviv, Israel) Oct 2023 – Jun 2024
BIU Center for Research in Applied Cryptography and Cyber Security; advisor: Prof. Carmit Hazay

Research Intern, University of Padua (Padua, Italy) Jun – Sep 2022
Mathematics Department; supervisor: Prof. Mauro Conti
- Used secure multiparty computation to provide security and privacy in cooperative autonomous vehicle networks, with a focus on intersection management

TEACHING EXPERIENCE

Teaching Assistant, Sabancı University Spring 2026 – present
- Discrete Mathematics: Spring and Summer terms, 2025–26 academic year
- Cryptography: Fall term, 2026–27 academic year

Mathematics Teacher, Atabey Education Course Center (Istanbul) Jan 2018 – Dec 2021
- Taught secondary school students problem solving and alternative solution approaches

TECHNICAL SKILLS

Programming & tools: Python, LaTeX, Linux, Windows, Microsoft Office
Foundations: algorithms, data structures, number theory, abstract algebra, coding theory, public-key cryptography

COURSES & CERTIFICATES

- Algorithms Specialization, Stanford University (Coursera)
- Cryptography I, Stanford University (Coursera)
- Cryptography, University of Maryland (Coursera)
- Data Structures, University of California San Diego (Coursera)
- Programming in Python, Meta (Coursera), 2025

SCHOOLS, SEMINARS & CONFERENCES

- FILOFOCS Days, Tel Aviv University, Apr 2024
- enCRYPTON Summer School: Cryptographic Solutions for Privacy Enhancing Technologies, Sabancı University, Aug–Sep 2023
- Summer School on Real World Crypto and Privacy, Šibenik, Croatia, Jun 2022
- Cybersecurity Camp, Gebze Technical University, Nov 2020

HONOURS & AWARDS

- Full Scholarship for MSc studies, Sabancı University, 2025
- Success Scholarship, Ministry of Culture and Tourism of Türkiye, 2022
- Erasmus+ Internship Grant, European Union, 2022

LANGUAGES

Turkmen (native) · Turkish (C1) · English (C1 listening and reading, B2 speaking and writing) · German (A1–A2)
